PROFESSIONAL SUMMARY

React Native developer with 4+ years of software development experience building and supporting production Android and iOS applications. Strong in React Native, TypeScript/JavaScript, REST APIs, Firebase, mobile debugging, performance optimization and release support. Experienced in taking features through development, testing, build troubleshooting and production. Additional backend experience with Node.js and Python/FastAPI enables effective ownership of mobile-to-API workflows.

CORE SKILLS

Mobile: React Native, Android, iOS, TypeScript, JavaScript, Redux/state management, Xcode, Gradle, Android Studio

Mobile Engineering: REST APIs, Firebase/Firestore, Push Notifications, Local Storage, Offline Support, Performance Optimization, Authentication, Build Troubleshooting

Backend: Node.js, Python, FastAPI, REST APIs, MySQL, SQL, Supabase

Cloud & Tools: AWS, Git, Nginx, CI/CD, Firebase

PROFESSIONAL EXPERIENCE

Techfino Capital Private Limited — Senior Software Developer | Jun 2022 – Present

- Build and maintain cross-platform Android and iOS applications using React Native, JavaScript and TypeScript.
- Develop reusable mobile UI components and integrate production REST APIs and authentication flows.
- Work with Firebase/Firestore and cloud-backed services for application data and mobile workflows.
- Troubleshoot Android and iOS build issues involving Gradle, Xcode, CocoaPods and dependencies.
- Investigate production issues across UI, APIs, databases and mobile builds, improving application stability and reliability.
- Develop and integrate backend services using Node.js and Python/FastAPI with MySQL.
- Support application deployment and production environments using AWS and Nginx.
- Work across requirements, implementation, testing, debugging and release support with ownership of delivered features.

Tharworx — Medical Billing Analyst | Jan 2021 – May 2022

- Worked on data-intensive operational workflows with focus on accuracy, data quality and timely resolution.

SELECTED MOBILE PROJECTS

Customer Financial Applications: React Native Android/iOS applications with authentication, REST API integration, production UI, debugging and release support.

Transit & Vehicle Applications: React Native applications for route, schedule and operational information, including API/cloud integration and production troubleshooting.

EDUCATION

Master of Computer Applications (MCA)
